What we offer you

The University of Ottawa Renal Transplant Fellowship is a one year program designed to give you advanced training in the medical management of renal transplantation. The program is accredited by the American Society of Transplantation/ American Society of Nephrology and has recently been accredited by the Royal College of Physicians and Surgeons of Canada as an Area of Focused Competence Program in Solid Organ Transplantation program.

You will gain experience in a large and diverse program working with faculty with expertise in medical education, clinical research, basic science research, renal pathology and tissue typing. You will have an opportunity to participate in research and scholarly activity while developing clinical expertise in the care and management of renal transplant patients.
