

Neurology

Multiple Sclerosis

Application details

Prerequisite(s): PGY 5 or greater, Completion of Neurology subspecialty training

Estimated % clinical workload: 70%

Number of positions annually: 2-3

Duration: 1-2 years

Start date: July 1st

Application deadline: November 15th

Contact: Janis Crawley (613) 798-5555 ext. 10966

Fellowship Director: Dr. Mark Freedman

What we offer you

This fellowship offers the training to improve basic knowledge of the disease course and mechanisms in Multiple Sclerosis. Trainees will learn to properly diagnose Multiple Sclerosis and differentiate it from mimicking disorders, along with gaining expertise in the management of patients with Multiple Sclerosis.

Fellows will begin to understand clinical trial design and results from studies of Multiple Sclerosis treatments while gaining expertise in running clinical trials. They themselves will successfully design and conduct a basic science or clinical research project in MS.
